

# Olive Oil Testing for the California Olive Oil Council Members

**Greetings From Ceway Chemical Services!**

We have been testing olive oils for the COOC beginning in 2004 with Intertek Caleb Brett in Benicia, California. We have recently relocated to Sebastopol California with Ceway Chemical Services and are proud to be a part of the California Olive Oil Council and once again it is our pleasure to serve the Council and its members. We offer discounted pricing for olive oil testing to all Council members. Ceway has been in the laboratory business since 1998 with over 50 years combined analytical experience. We offer the COOC testing protocol as well as many other tests including total phenolics, solvents, fatty

acid profile, trans fatty acids, etc. Please give us a call or email if you have an

questions and visit our web site for more information and sample submission forms.

In addition to many routine test methods, we provide custom analyses and problem solving in our modern well equipped laboratory.

COOC members receive a 50% discount on the three primary olive oil tests: acidity, peroxide number, and UV analysis.

Please do not hesitate to call with any questions, we would be happy to advise you on any issues regarding the chemistry of your olive oil.

Best Regards,  
Michael Leal  
Laboratory Manager
